

Experienced DevOps Solutions

Successful DevOps requires a balance of people, processes, culture, and tools.

ReleaseTEAM can help you at every step along that journey

ReleaseTEAM helps development teams to adapt and mature their software development lifecycle methodology. We work with public and private organizations of all sizes, from startups to Fortune 500 enterprises, and in nearly every industry. Collaborating with ReleaseTEAM to modernize your agency can reduce the total cost of ownership, ensure your project's success, and improve your organization's ability to achieve its goals while keeping the entire system secure.

In DevOps, Experience Matters!

Our expert staff will work with you to understand your unique needs, explore options, and deliver a solution tailored to your objectives and culture. We provide consulting services, support, staff augmentation, team coaching/mentoring, and software & licensing solutions across nearly every industry in the U.S. and Canada.

Put Our Experience to Work for You

"ReleaseTEAM works with me to get through roadblocks together. They've been awesome to work with. I've been in the business for 30-plus years; this is by far the best relationship I've had with a vendor. When I can find a trusted adviser, my life is much easier and that's what the ReleaseTEAM has been for me."

Tom Brennan, I.T. Manager- Engineering Systems
Rosemount, Inc / Emerson Electric

CONSULTING

Agility shouldn't compromise reliability. When you need to release code that ensures your organization retains the competitive edge, ReleaseTEAM will ensure that your tools and processes address requirements and mitigates risk with every new release.

SUPPORT

Our senior-level SMEs provide expert support services for all our partner products, including best practices and processes.

We support modern, legacy, and open source tools and are always available to resolve issues remotely, via email, phone, or on-site if required.

SOFTWARE

We ally with industry-leading partners to deliver the latest DevOps technologies to our clients. As a service solution partner, ReleaseTEAM can assist you with tool selection, implementation, migration, support, or upgrades.

Centralize your licensing with our license management solutions.

STAFF SOLUTIONS

ReleaseTEAM's experienced consultants work with your team until you find the right new hire.

Meanwhile, ReleaseTEAM's experts can mentor key staff or "train your trainer" to ensure your organization has the right skills for your environment.
